---

A 75.28m expedition yacht, CLOUDBREAK was designed for extreme exploration. Custom-built for an owner with a passion for the great outdoors, she is named after a legendary surfing reef in the South Pacific. Built by German shipyard Abeking & Rasmussen in 2016. The ideal luxury yacht for modern explorers, she is fully equipped for epic adventures in the most remote destinations on the planet.

With 6 sumptuous staterooms, CLOUDBREAK can welcome up to 12 charter guests overnight. On the main deck, the stunning master suite has a fresh modern look and a full range of luxurious amenities. Two large terraces offer panoramic views while an outdoor daybed allows guests to sleep under the

stars while cruising.

There are 5 guest cabins located on the lower deck which give direct access to CLOUDBREAK's magnificent beach club via a specially-designed corridor. Decorated with a chic neutral colour palette, the guest staterooms feature a curved design maximising their generous size and natural light.

CLOUDBREAK's sophisticated interior was created by Paris-based architect Christian Liaigre. Designed to be warm and welcoming in the most extreme weather conditions, the living space is bright and spacious. A glass-enclosed lift allows guests to easily move between decks while a fireplace gives the saloon a cosy chalet vibe.

On the main deck, a vast living room and elegant formal dining area are perfect for relaxing with friends. A large saloon on the upper deck offers guests a comfortable seating area with panoramic views on all sides. The luxurious spa is a great way to unwind and the whole family will love the circular cinema room situated next to the helideck.

Striking and rugged, CLOUDBREAK's impressive exterior was styled by Norwegian designer Espen Oeino. Designed for outdoor living in all climates, a winter garden on the upper deck can be opened for alfresco dining. The sundeck features a large open-air pool and there are multiple lounge areas on

# KEY FEATURES
