

*"The Best Choice You Can Make
for Exploring Iceland"*

ICELAND BY **YERSIN**

DISCOVER ICELAND 14 DAYS

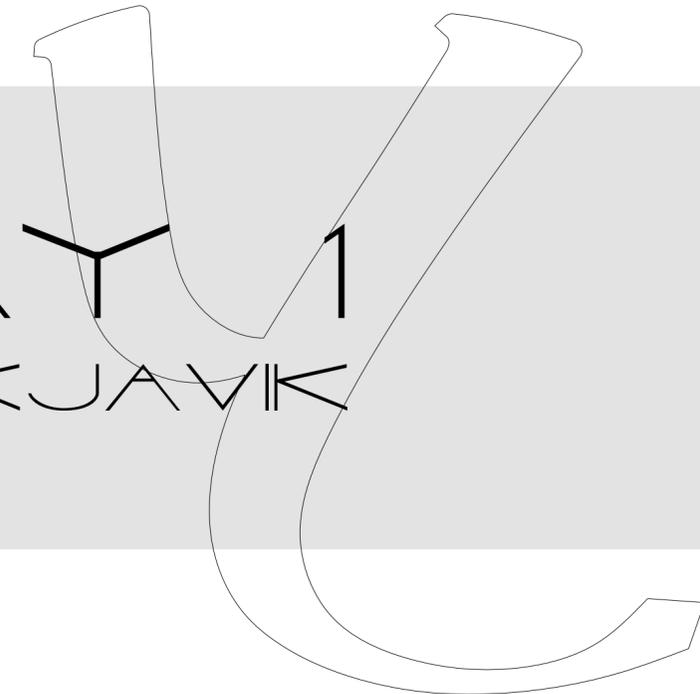

ICELAND, a fantastic island born from the fury of volcanoes. Much of its popularity is due to its natural beauty: glaciers, hot springs, geysers, active volcanoes, snow-capped peaks and vast lava deserts. Iceland also has a fascinating history, an interesting literary production and a remarkable folk tradition.

1000 MILES AROUND ICELAND

DAY 1 REYKJAVIK

Reykjavík, the "smoking bay" founded by the Vikings, hot and frozen at the same time. Here the musical and cultural ferment of theaters, galleries and design dissolves in the warm waters of the geothermal pools.

ARRIVAL DAY - NIGHT IN REYKJAVIK

DAY 2

SNÆFELLSJÖKULL

The Snæfellsnes Peninsula has some of Iceland's most important attractions. you can see lava fields, black sand beaches, iconic volcanoes, such as the famous Snæfellsjökull of 1,446 meters, which is surrounded by a vast wilderness dotted with lava flows, [Here](#) Jules Verne, suitable "Journey to the Centre of the Earth".

EARLY MORNING NAVIGATION - 60 MILES - 5 HOURS - ARRIVE FOR BREAKFAST

DAY 3

FLATLY ISLAND

Flatey is an island of the western islands, a cluster of about forty large and small islands and islets located in Breiðafjörður on the northwestern part of Iceland. Flatey and its surrounding islands are, as a creation, believed to have forged from under the weight of a great glacier during the previous Ice age.

NIGHT NAVIGATION - 63 MILES - 5 HOURS - ARRIVE FOR BREAKFAST

DAY 4

WESTFJORDS

Westfjords is the part of the Island of Ice and Fire chosen by many travelers who love to enjoy Iceland's natural beauty with the necessary calm and the right amount of solitude. The silent and deep coves of the Westfjords are an excellent opportunity to enjoy the Midnight Sun, or the wonderful landscapes.

DAY 5

SIGLUFJÖRDUR

Siglufjörður is a small fishing town in the north of Iceland where time seems to have stopped a few decades ago. The colorful tin-lined wooden houses give the historic center of Siglufjörður an unprecedented charm, thus making it one of the most characteristic places in the entire Tröllaskagi Peninsula

NIGHT NAVIGATION - 139 MILES - 12 HOURS - ARRIVE IN THE MORNING

DAY 6

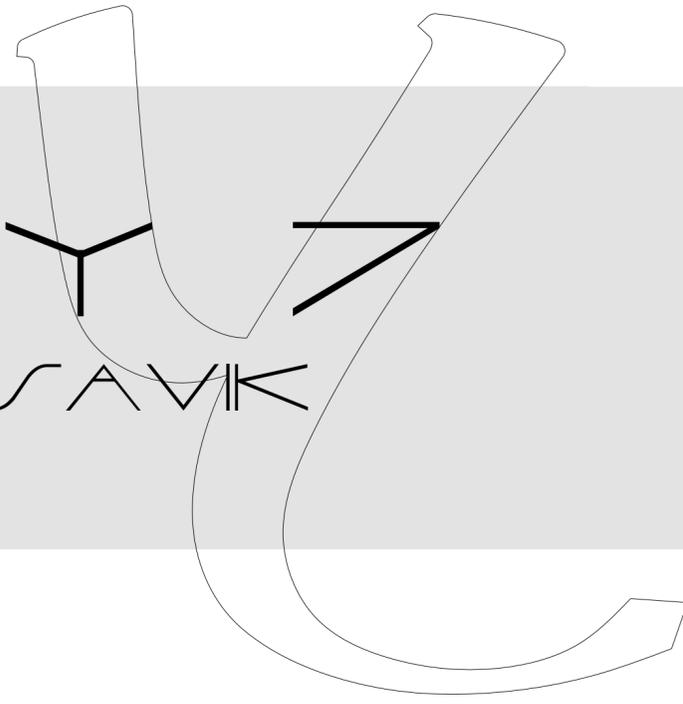

MYVATN

The heart of northeastern Iceland is the Lake Mývatn region, characterised by particularly scenic views. This lake and its surroundings are so beautiful that they look like a painted landscape. The lake was created 2,300 years ago as a result of a large basaltic lava eruption, and is the fourth largest in Iceland.

DAY 7

HUSAVIK

Husavik village is essentially known to be the best starting point in Iceland for whale watching. This is due to the fact that the bay overlooked by Husavik has particular characteristics that make it a particularly suitable habitat for cetaceans, in particular the abundance of food. With its colorful houses, original museums and snow-covered peaks reflected in the bay, little Húsavík is arguably the prettiest town on the entire northeastern coast.

EARLY MORNING NAVIGATION - 59 MILES - 6 HOURS - ARRIVE FOR LUNCH

DAY 8

LANGANES

The unspoilt Langanes Peninsula, shaped like a goose with a big head, is one of the most lonely corners of Iceland. The flat area of tundra, dotted with grassy meadows and crumbling ruins, is the ideal place to go trekking and contemplate different species of birds.

DAY 9-10

HOFN

Vestrahorn is part of the Stokksnes mountain range and is one of the most photogenic places you can find in Iceland and beyond. Vestrahorn rises on a lagoon next to the sea, when the lagoon is calm, truly spectacular reflections are created.

ONE DAY NAVIGATION NAVIGATION - 190 MILES - 17 HOURS - ARRIVE FOR DINNER

DAY 11

WESTMAN ISLAND

Among the most evocative and enchanted places in Iceland, the Westman Islands are the ideal place to get out of the daily frenzy and enjoy the calm and magic that only the nature of these places can give.

NIGHT NAVIGATION - 152 MILES - 14 HOURS - ARRIVE IN THE MORNING

DAY 12

KATLA & ICE CAVE

Sitting under the massive Mýrdalsjökull ice cap, Katla is the third most active volcano in Iceland. Visit the breathtakingly beautiful Ice Cave that has recently been found nestled away at the glacier's foothills.

EARLY MORNING NAVIGATION - 6 MILES - 1 HOURS - ARRIVE FOR BREAKFAST

DAY 13

BLUE LAGOON

Before leaving, spend a relaxing day in the turquoise thermal waters surrounded by volcanoes.

NIGHT NAVIGATION - 65 MILES - 6 HOURS - ARRIVE FOR BREAKFAST

DAY 14

REYKJAVIK

Designed by the artist Olafur Eliasson and built in 2011, this futuristic glass building dominates the bay of Reykjavík and is visible even from far away and at night, thanks to the multicolored lights that reflect on the water and the surrounding landscape.

NIGHT NAVIGATION - 52 MILES - 5 HOURS - ARRIVE FOR BREAKFAST - DEPARTURE DAY
